# Car Polishes

## HEAVY CUT

For ideal polishing conditions after rough grinding:  
The classic, high-performance Menzerna car polishing pastes in the heavy cut segment. Scratches, overspray and severe signs of use are removed quickly, reliably and thoroughly.  
Innovative and highly abrasive one-step products with the latest polishing technology complete the heavy cut segment. Professional automotive polishes based on industrial process standards.

## Car Polishes

### MEDIUM CUT

Menzerna Medium Cut car polishing compounds are the best automotive polishes for signs of use and moderate scratches:

Medium cut automotive polishes from Menzerna – for a perfect surface with a brilliant gloss. Especially well-suited for light automotive coatings.

### FINISH

Menzerna finishes are perfect auto polishing solutions for minor scratches, streaks and clouding in automotive polishing. They ensure a completely hologram-free surface with an exclusive gloss, all the way to a show car finish – even on black coatings.

## SEALANTS

### PROTECTION

Menzerna sealants offer long-lasting protection against environmental influences. For protected perceptibly smoother surface with a brilliant gloss. Ideal protection against dust and optical beading behavior are guaranteed: the best polishing compounds for clear coats.

## Menzerna GREEN LINE Polishes

The Menzerna GREEN LINE car polishes protect the health of the user and protect the environment. The VOC-free abrasive polishes by Menzerna meet the stringent criteria of DIN EN ISO 11890-2, as they contain no aggressive, highly volatile solvents.

## CLEANING Accessories

Menzerna cleaning accessories deliver a clean surface and lay the groundwork for polishing and sealing. Effortlessly clean your car with high-quality products, whether car shampoo, cleaning spray, or quick detailer.

### ACCESSORIES

#### MZ Wash

Removes dirt without residue, preparing the surface for polishing.

#### Endless Shine

The wellness program for all smooth surfaces such as paint, glass, plastic or metal.

#### Control Cleaner

Cleaning spray for particularly thorough polishing.

#### Premium Car Wash Mitt

This premium car-washing mitt is gentle on the coat and therefore perfect for hand-washing vehicles.

#### Car Wash Bucket

Deliver a clean surface with the high-quality and robust Menzerna car wash bucket, including a GridGuard™ Insert.

# POLISHING Accessories

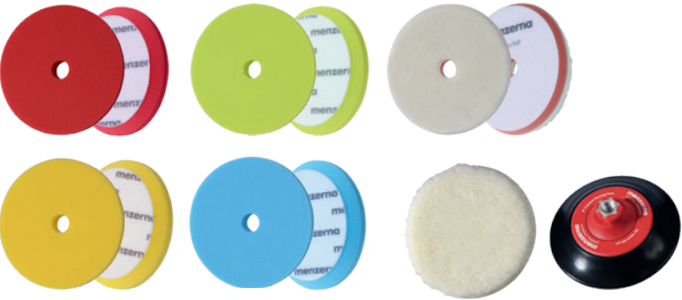

The combination of polish, polishing machine, and pad is vital to the success of paint repair. Put your trust in the perfectly balanced combination of Menzerna polishing compounds and polishing tools.

## Menzerna Premium Pads

HEAVY CUT, MEDIUM CUT, SOFT CUT and WAX FOAM PADS

- Benefits:
- Washable
  - Consistent, long-lasting foam
  - Safety edge
  - High-quality Velcro®
  - Convenient to use

## Metal Polish

- Benefits:
- Easy application
  - Economical consumption
  - Reliable results
  - Versatile in application: trade, home, leisure
  - Silicone-free

## Hand Polishing Applicator

Diameter: 95mm/3,5"

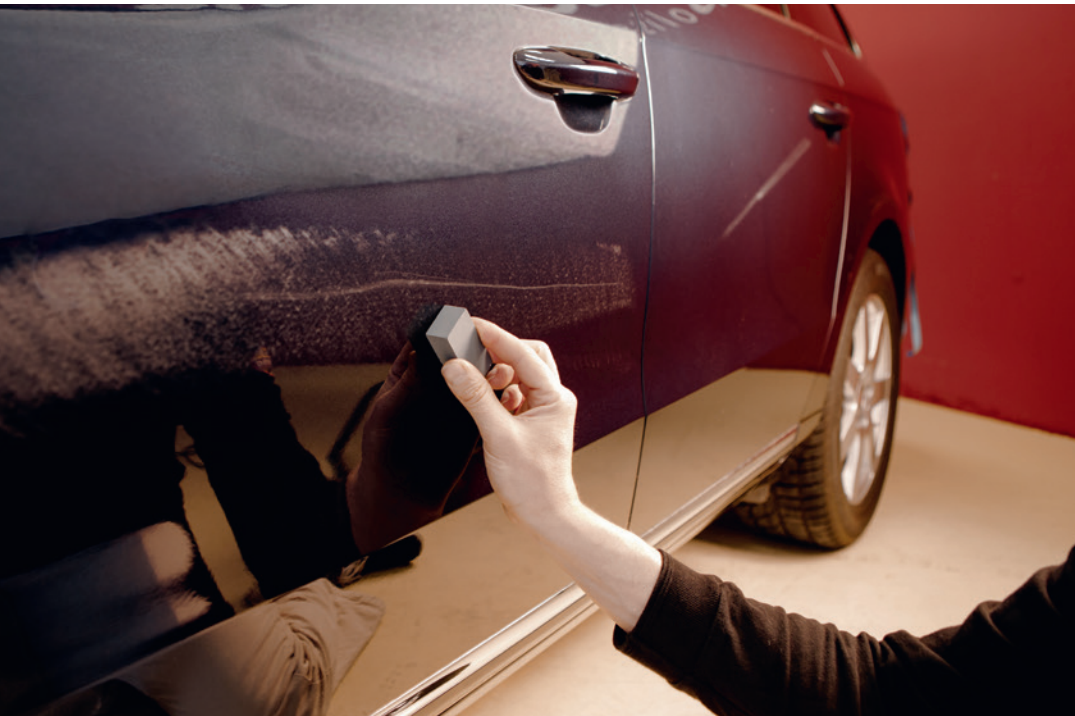

## Polishing Adapter

for Drilling Machines

## SANDING Accessories

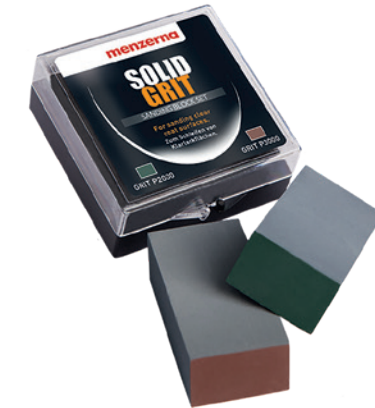

Sanding eliminates stubborn paint irregularities. Ideally, a range of perfectly coordinated sanding accessories is used: Solid Grit can be relied upon to easily remove scratches, varnish runs, dust inclusions, etching, and orange peel effect – and is ideal for repairs.

### Solid Grit

Sanding block for sanding clear coat surfaces

Benefits:

- Prevents deep sanding marks
- Long service life
- Sanding without a machine
- Even sanding pattern
- Handy, easy to use
- Best sanding quality
- Versatile in application thanks to different sanding grades

# Menzerna Boat Polishes

## GELCOAT Liquid Sanding

Full speed ahead. Liquid sanding is the Menzerna breakwater. This liquid sandpaper aggressively sands badly scratched, dirty or chalky gelcoats. Liquid sanding establishes clear conditions at repair sites: ideal surface preparation for subsequent polishing.

# Menzerna Boat Polishes

## GELCOAT Premium One-Step Polish

Brilliant results in just one process step?  
With Gelcoat Premium One-Step Polish, this dream becomes reality. Our innovative specialty product works all the way to the finish range and is ideal for any gel coat. Especially when speed really counts.

## GELCOAT Premium Gloss

You love a mirror finish and flawless surfaces? Then you are going to like our Gelcoat Premium Gloss. It makes dark gel coats look like the boat was only just launched. An aesthetic and functional enhancement for all boats.

## Menzerna Boat Polishes

### GELCOAT Premium Protection

Value retention is everything. That is why boats need regular polishing. Gel coat Premium Protection offers long-lasting protection against adhesion and scratches. The boat polish with the latest polymer technology results in perceptibly smoother surface.

## Menzerna Emulsions

Abrasiveness, gloss values, consumption, tool wear and degreasing properties are crucial. Every emulsion is developed internally by Menzerna and carefully tested in the Menzerna technical center. The upstream and downstream process steps are coordinated as well. Stable polishing processes and the highest surface quality with short cycle times are key success factors for Menzerna.

## Solid Compounds

### Covering all areas of industrial polishing with numerous innovative formulations

Menzerna develops and produces pastes, emulsions or polishes for industry and trades. Menzerna polishing compounds stand for quality, speed and process security and are used on a wide variety of materials such as aluminum, brass, stainless steel or coated surfaces.

#### SUPER HEAVY CUT

On unfinished aluminum or brass parts and brass mill scale: Menzerna solid polishing pastes with very high abrasiveness produce a brushed, deburred or stain surface finish.

#### HEAVY CUT

The polishing pastes in the Heavy Cut segment are ideal for the fast and thorough removal of defects ranging from throwing marks to grinding marks on metals. Scratches and surface defects on coatings are reliably eliminated.

## Solid Compounds

### MEDIUM CUT

Sanding and polishing pastes in the Medium Cut segment ensure consistent polishing results with no deep scratches and guarantee a beautiful gloss on all surfaces. These polishing pastes are suitable for a broad range of applications.

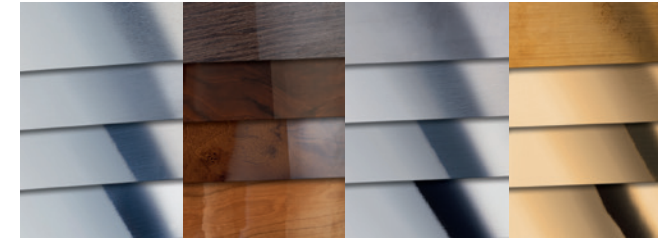

### FINISH

The highest gloss level in the shortest time: Menzerna finishing pastes meet the highest gloss level requirements - on all surfaces

### SUPER FINISH

The polishing pastes in the Super Finish segment are super fine high gloss pastes for brilliant surfaces with a deep gloss. They are versatile in application and ensure premium polishing results with the highest gloss level.

- Surfaces:
- Aluminum
  - Brass / NE-Metals
  - Stainless steel
  - Painted surfaces
  - Automotive coating
  - Plastics / Composites
  - Precious metals
